CMake Warning at cmake/Dependencies.cmake:310 (find_package):
By not providing "FindEigen3.cmake" in CMAKE_MODULE_PATH this project has
asked CMake to find a package configuration file provided by "Eigen3", but
CMake did not find one.

Could not find a package configuration file provided by "Eigen3" with any
of the following names:

  Eigen3Config.cmake
  eigen3-config.cmake

Add the installation prefix of "Eigen3" to CMAKE_PREFIX_PATH or set
"Eigen3_DIR" to a directory containing one of the above files. If "Eigen3"
provides a separate development package or SDK, be sure it has been
installed.

CMake Warning (dev) at /Users/josepen/Development/pytorch/torch/lib/tmp_install/share/cmake/Caffe2/Caffe2Config.cmake:86 (if):
  if given arguments:
    "ON" "AND" "NOT" "CAFFE2_USE_CUDNN"

  An argument named "ON" appears in a conditional statement. Policy CMP0012
  is not set: if() recognizes numbers and boolean constants. Run "cmake
  --help-policy CMP0012" for policy details. Use the cmake_policy command to
  set the policy and suppress this warning.
Call Stack (most recent call first):
  CMakeLists.txt:7 (FIND_PACKAGE)
This warning is for project developers. Use -Wno-dev to suppress it.

-- Configuring done
CMake Warning (dev):
  Policy CMP0042 is not set: MACOSX_RPATH is enabled by default. Run "cmake
  --help-policy CMP0042" for policy details. Use the cmake_policy command to
  set the policy and suppress this warning.

MACOSX_RPATH is not specified for the following targets:

  shm

This warning is for project developers. Use -Wno-dev to suppress it.
